

ABCA Systems Ltd is a UK wide specialist electrical systems provider. The company was established in 1986, giving us plenty of time to build a reputable wealth of experience. We provide a myriad of products, systems and services to large public sector organisations and private residential home owners alike.

We appreciate that our activities and services impact the environment. We are committed to the continual improvement of our environmental performance. We aim to achieve this by setting and reviewing environmental objectives and targets, in line with the following commitments:

- **Maintain an Environmental Management System to ISO14001 Certification Standard.**
- **Assess and manage the environmental impacts of our operations.**
- **Raise environmental awareness of staff through continual CPD and training.**
- **Encourage and facilitate staff engagement in both internal and external environmental projects.**
- **Comply with all relevant environmental legislation and other requirements.**
- **Prevent pollution to air, water and land.**
- **Encourage sustainable consumption associated with our activities to minimise unnecessary waste of electricity, fuel and materials.**
- **Consider environmental credentials of our supply chain and source locally where practical.**

This document is communicated to all employees and relevant parties and is made available to the public via the company website. It shall be the responsibility of all employees at ABCA Systems Ltd to ensure that business practices are conducted in line with this policy.

Philip Miller
Managing Director
